- Medical/Surgical
- Outpatient Facility
- RBRVS

Executive Summary

Ingenix Pricing Solutions (IPS) Online is an easy-to-use, web-based look-up tool that provides MDR® and PHCS® customers with instant access to their benchmarking databases, including all professional and facility modules. IPS Online can help:

- ← Performs procedure code look-ups by Geozip online
- ← Access claims based data for local charge levels
- ← Effectively negotiate with a recognized benchmark

Effective Online Access

IPS online allows you to obtain your MDR and PHCS benchmarking data through the use of internet technology, giving you immediate access to your benchmarking data to help you quickly search powerful health intelligence and incorporate strategic information into pricing and reimbursement decisions such as:

- Claim negotiations
- In-and out-of-network claim reimbursement
- Fee schedule development
- Data benchmarking and code comparisons

Key Features

The benchmarking data in IPS Online is automatically updated with most recent product updates. With immediate web access to two years worth of prior releases, IPS Online option gives you the ability to:

- Perform code look-ups on an as-needed basis
- View product percentiles, relative values, data frequencies, and conversion factors (per applicable modules)
- Formulate comparisons with prior released modules

Comprehensive Support Services

- **Product support**—We provide a toll-free number for complimentary assistance with basic coding questions, product-specific questions, and various other data-related inquiries.
- **Technical support**—Our expert IT team stands ready to address your format, installation, and general technical questions via telephone or email.
- **Dispute resolution**—Your license to the benchmarking modules includes access to materials and support that can assist you in resolving disputes.
- **Customer website**—Access documentation and valuable support materials including users guides, record layouts, installation instructions, news/information, and relevant clinical topics.
