

Provider Verification Subscription Service

Benefits

- Maintain fully up-to-date status for your provider network at all times
- Eliminate the need for expensive, internal outreach programs
- Pay only when your providers' data is updated or verified in your network
- Receive weekly updates that alert you to updated records
- Define output formats and schedules to meet your needs
- Access our database consultants to ease crosswalk and reintegration processes

We're talking to your providers - regularly.

Ingenix has the largest referential database of physicians, dentists and allied professionals available in the United States today. Every day, we contact thousands of those providers to verify and update their information to maintain the integrity and accuracy of our files.

Your organization also maintains a database of network providers. How regularly are you contacting them to update their information?

Whether or not you have an outreach verification program, you're incurring substantial costs associated with your provider data.

The cost of maintaining an up-to-date provider database yourself is significant. Market data shows that outreach programs can cost anywhere from \$6-\$10 per provider. The cost of not maintaining that database can be even higher - particularly when you consider inefficient claims processing, returned check processing, returned or redundant mailings and the costs of locating accurate provider data when required.

Leverage our data. Lower your costs.

The Ingenix Provider Verification Subscription Service leverages our competent outreach staff and our extensive outreach processes to enable you to maintain fully up-to-date records on your providers. Moreover, we'll help lower your costs and improve your operational efficiency without developing or maintaining an outreach program yourself.

Because Ingenix serves many clients with overlapping provider networks, we are able to provide this outreach service to you at an extremely attractive price – far less than the cost of doing this yourself. With this subscription service, you'll only be charged when data has been updated or verified for one of your providers.

Key Features

- Weekly alerts of provider updates forwarded via email
- Custom FTP site for drop off and pick up of updated files
- Standard verification includes key identified fields:
 - Name
 - Address and Type
 - Phone
 - Fax
 - Medical Degree
 - Specialty
 - Email
 - Gender
- Custom verification services (special data or focused regional programs)
